

# Effective Teaching

*From: “Can Student Surveys Measure Teaching Quality?” by Ronald Ferguson*

Mark D. Benigni, Ed.D.  
Superintendent

# Questions to ask yourself...

*Do I really try to understand how students feel about things?*

*Does our class stay busy and not waste time?*

*Do I accept nothing less than my students full effort?*

*Do I want my students to use their thinking skills, not just memorize things?*

*Do I make lessons interesting?*

*Do my class assignments connect with real life experiences?*

*Do I give my students time to explain their ideas?*

*Do I take the time to summarize what we learn each day?*
