Questions to ask  
yourself when working  
with a teacher in need  
of support...

*What have I done to help the teacher?*

*Have I videotaped the teacher?*

*Have I encouraged the teacher to go on a peer visit to see a master teacher?*

*What resources have I given the teacher?*

*What's the support structure in our school like?*

*Does the teacher have a team leader or colleague who's working with them on a weekly basis?*

*Is there a supervisor or school administrator helping the teacher?*
